

Master Electrician Examination Outline

Prior to signing up for the examination, review the Master Electrician Licence requirements on our website. Passing the examination is only one of the necessary requirements to obtain a Master Electrician Licence.

The objective of the Master Electrician Examination is to test an individual's knowledge of the laws, rules and regulations governing the installations and repair of electrical equipment and material and the supervision of such work as well as safety and business acumen.

The examination is divided into the following three sections:

1. **The Ontario Electrical Safety Code (33%)** - All sections of the 2015 Ontario Electrical Safety Code and ability of the applicant to properly use the Code as a Reference Book
2. **Worker Safety (33%)** - Recognizing Hazards, Occupational Health and Safety Requirements, The Occupational Health and Safety Act and regulations for Construction and Industrial Projects, the Workplace Safety and Insurance Act, WHMIS
3. **Business Administration (33%)** – Electricity Act, Ontario Regulation 570/05, Consumer Protection, Business Management, Bill C45, Consumer Protection Act and the Construction Lien Act, Human Rights Code, Labour Relations Act, Employment Standards Act, Ontario College of Trades and Apprenticeship Act, as they relate to electrical contracting.

Examination Particulars:

- It is mandatory that each applicant bring a government issued **photo ID** to the examination consisting of any of the following:
 - Driver's licence
 - Passport
 - Canadian citizenship card
 - Government issued identification

Applicants who do not bring an acceptable form of identification, as well as the Confirmation Letter, will not be admitted into the examination area. The applicant will have to re-schedule for the next available examination.

Applicants must arrive to the examination location at least 30 minutes before the scheduled start time.

The Master Electrician Examination is 3 hours in length, which consists of 80 multiple choice questions; there is only one correct answer for each question. If you arrive late or require a restroom break during the examination, additional time for your examination will not be provided. To pass the examination you must achieve an overall mark of at least 70% and a minimum of 60% in each of the three sections.

NOTE: If you are taking ESA’s Pre-Master Electrician Course, the “2015 Master Electrician Examination Study Material” book **is included** with your course package.

Tips for Preparing for the Master Electrician Examination

Scheduling your study time

- Study early. It is suggested that arranging your study time into shorter sessions over a period of time proves to be far more valuable than cramming all the material into closely spaced and lengthy study intervals.
- Maintain a regular study schedule
- Set specific study goals
- Take breaks between study sessions, more complicated, and difficult subjects will require many frequent breaks
- Begin each study session with a short review of the previously studied material

Organizing your materials for an open book examination

- Open book examinations require ample preparation in order to understand and familiarize oneself with the material
- Preparation allows for better organization, and will assist when searching for information during the examination
- Be sure to tab, or colour code information that is relevant to the examination
- Utilize your codebook to make notes, or expand on concepts or words which you might not understand
- You may make notes in your codebook **that expand on concepts or words which you might not understand. You are not permitted to add notes that are not relevant to the material covered in the code book.**
- Be sure to go over relevant legislation and bring it with you to the examination
