

ATIKOKAN HYDRO INC.

It has come to my attention that neither Bell Canada or Union gas do locates on private property other than to the point of demarcation. Atikokan Hydro does not do locates on private property once past the meter [point of demarcation is the attachment to the premises.

In many cases the "building of a deck" or planting a tree would not be covered under Atikokan Hydro's request for a locate.

Could you confirm that the question or comment about call before you dig only encompasses electrical services that Atikokan Hydro maintains or had control of the type of installation?

Thanks

Atikokan Hydro Inc.
