

Hydro One Networks Inc.

Question 1:

'Normally' may be confusing. May need to be more explicit (ex. > 6months of the year, etc)

1. Are you at least 18 years old and normally a resident of Ontario?
- Yes
- No [THANK AND TERMINATE]

Question 7:

Possible rewording of selections, as once a lower number is mentioned mentioning a upper limit number may cause confusion as it is asking how close not the furthest distance to stay within(ex less than 3metres). To simplify the answers, 2 possible proposed options are below. A similar suggestion could also apply to Q9. My main suggestion is to have one number mentioned for each option, unless the distance ranges are consistent to training materials from LDCs.

7. When undertaking outdoor activities – such as, standing on a ladder, cleaning windows or eaves, climbing or trimming trees – how closely do you believe you can safely come to an overhead power line with your body or an object? Would you say ...
- | | |
|--------|---|
| 0.00pt | You can safely touch an overhead power line |
| 0.00pt | Less than 1 metre (i.e. less than 3 feet) |
| 0.00pt | 1 to less than 3 metres (i.e. 3 to less than 10 feet) |
| 1.00pt | 3 metres to less than 6 metres (i.e. 10 feet to less than 20 feet) |
| 0.75pt | You should maintain a distance of 6 metres or more (i.e. 20 feet or more) |
| 0.00pt | Don't know |

0.00pt You can safely touch an overhead power line (overlap with 2nd response which could be eliminated)

0.00pt Any distance 1 metre or more (Once 1 metre is mentioned it can be assumed you are within 3metres, 6metres, or anything greater)

1.00pt Any distance 3 metres or more

0.75pt Any distance 6 metres or more

0.00pt Don't know

OR

0.00pt You can safely touch an overhead power line (overlap with 2nd response which is eliminated)

0.00pt Safely as close as 1 metre or more (Once 1 metre is mentioned it can be assumed you are within 3metres, 6metres, or anything greater)

1.00pt Safely as close as 3 metres or more

0.75pt Safely as close as 6 metres or more

0.00pt Don't know

Question 9:

9. How closely do you believe you can safely come to a downed overhead power line, such as a downed line caused by a storm or accident? Would you say...

- 0.00pt You can safely touch a downed overhead power line
- 0.00pt Less than 1 metre (i.e. less than 3 feet)
- 0.00pt 1 to less than 5 metres (i.e. 3 to less than 16 feet)
- 0.00pt 5 metres to less than 10 metres (i.e. 16 feet to less than 33 feet)
- 1.00pt You should maintain a distance of 10 metres or more (i.e. 33 feet or more)
- 0.00pt Don't know

0.00pt You can safely touch a downed power line (overlap with 2nd response)

0.00pt Any distance 1 metre or more

0.00pt Any distance 5 metres or more

1.00pt You should maintain a distance of 10 metres or more

0.00pt Don't know

OR

0.00pt You can safely touch a downed power line (overlap with 2nd response)

0.00pt Safely as close as 1 metre or more

0.00pt Safely as close as 5 metres or more

1.00pt You should maintain a distance of 10 metres or more

0.00pt Don't know
