

OESC Code Rule 2-004(7)

Description of the change: Amend Ontario Rule 2-004(7), Clarification of ACP ESA inspection process

Background

Sub-rule 2-004 (7) sets out the process for contractors to follow. In the case for the Authorized Contractor Program (ACP), a manual for the program was developed for contractors to follow. The manual identifies the program objectives, eligibility, benefits, and verticals.

Rationale

In order to participate in any program developed by ESA a contractor is required to follow process set out in the program. In this case, ACP has a manual that is required to be followed in order to participate in the program. The manual is updated as required to expand the program or change the program parameters.

Code Proposal

2-004 Inspection

7. *An inspection may be deemed by the inspection department to have been made for an electrical installation or a group of electrical installations and connection authorized even though all portions of any installation in the group and all installations in the group have not been inspected, provided that*
- a) *a contractor files with the inspection department a completed application for inspection of any work on an electrical installation or a group of electrical installations within the time specified by the inspection department, whether or not electrical power or energy has been previously supplied to the land, building, or premises on which the work was performed;*
 - b) *the contractor is qualified in accordance with Subrules (8) and (9);*
 - c) *the contractor is in compliance with the process set out by the Inspection Department;*
 - ~~d~~ *there is compliance with Subrules (1)(b), (2), (3), and (4);*
 - ~~e~~ *the contractor has provided assurance acceptable to the inspection department that all portions of any installation or group of installations comply with this Code; and*
 - ~~f~~ *portions of the installations have been inspected by the inspection department and all inspected portions conform to this Code.*
