

***DEWALT Industrial Tool Co. and CSA International announce voluntary recall to repair 12-inch miter saws***

Toronto, Ontario -- In cooperation with CSA International, DEWALT® Industrial Tool Co., of Baltimore, Md., is voluntarily recalling for repair approximately 9,300 12-inch miter saws (Models DW704-04 TY1, DW705-04 TY1) which are used to make angle cuts. Bolts on the saw can loosen and the blade could detach, posing a risk of lacerations to consumers.

DEWALT has not received any reports of injuries with these miter saws in Canada. This recall is being conducted to help prevent the possibility of injury.

This voluntary recall involves only 12-inch DEWALT miter saws having model numbers DW704-04 TY1 and DW705-04 TY1. The model numbers are located on the nameplate on the top of the saws housing. The saws are yellow with black accents. The recalled miter saws have date codes from 9201 through 9340. The date code is stamped into the end cap or back of the saws.

No other DEWALT miter saws are involved in this recall.

Home center and hardware stores sold these miter saws throughout Canada from January 1992 through December 1993 for between \$489 and \$ 599.

Consumers should stop using these miter saws immediately, and call DEWALT to receive a free replacement bolt to repair the saw. For more information or to order the repair kit, call DEWALT toll-free at (888) 771-4540 between 8 a.m. and 4:30 p.m. ET Monday through Friday, or go to their web site at [www.DEWALT.com](http://www.DEWALT.com).
