Frigidaire Recalls Certain Smoothtop Electric Ranges with Rotary Knobs and Digital Displays

Toronto, ON – The Electrical Safety Authority is notifying the public that the Frigidaire division of Electrolux Canada Corp. (“**Frigidaire**”) has announced a voluntary recall (the “**Recall**”) of the following consumer products. Consumers should unplug and stop using recalled products immediately.

Name of Products: Frigidaire® and Kenmore Elite® freestanding smoothtop electric ranges with rotary knobs and digital displays, as described in the chart below.

Kenmore Elite Units: Approximately 22,125

Frigidaire Units: Approximately 31,789

Manufacturer: Frigidaire

Canadian Distributor: Frigidaire

Hazard: Depending on the model, the surface heating elements can: 1) turn on spontaneously without being switched on; 2) fail to turn off after being switched off; or 3) heat to different temperatures than those selected by unit controls. These characteristics create fire and burn risks for consumers.

Incidents/Injuries: Frigidaire is not aware of any reports of serious injuries or substantial property damage in Canada related to these issues. In the United States, Frigidaire has received four reports of minor injuries and two reports of minor property damage.

Description/Models: All models beginning with the letters and numbers set out below, and falling within serial number ranges VF122xxxxx to VF831xxxxx or NF122xxxxx to NF806xxxxx are included in the recall (“**Affected Units**”). The model and serial number can be found by opening the range drawer at the base of the unit. The information plate appears on the right side of the frame.
