ADP Recalls Unit Heaters Due to Fire Hazard

The Electrical Safety Authority is notifying the public that Advanced Distributor Products LLC (“ADP”) has announced a voluntary field repair action in Canada for the consumer products set out below. Consumers should stop using the affected unit immediately and contact ADP to arrange for an inspection and, if necessary, field repair.

Name of Product: Separated combustion gas-fired unit heaters.

Units: Approximately 105 in Canada.

Manufacturer: Lennox Industries Inc., of Richardson, Texas or Advanced Distributor Products LLC, of Grenada, Mississippi.

Hazard: Some heaters were manufactured without a required flame rollout switch, which is a back-up device that shuts down the heater in the event of a heater failure. This poses a fire hazard.

Incidents/Injuries: ADP has not received reports of incidents associated with the affected products. No injuries have been reported.

Description/Models: This recall involves ADP unit heaters with the model numbers and serial numbers listed below. The brand name “ADP,” the model number, and the serial number can be found on the nameplate located inside the control cabinet.
