Leggett & Platt Recalls Adjustable Mattress Bases Due to Fire Hazard

The Electrical Safety Authority is notifying the public that Leggett & Platt has announced a voluntary recall of the following consumer products. Consumers should stop using recalled products immediately.

Name of Product: Power foundations or adjustable bases for mattresses.

Units: Approximately 134 units sold across Canada

Manufacturer/Importer: Leggett & Platt, Incorporated (Georgetown, Kentucky, United States).

Manufactured in: United States

Hazard: Electrical components in the motor control board can fail and short causing overheating, which poses a fire hazard.

Incidents/Injuries: No injuries or property damage have been reported in Canada. However, the firm has received 29 complaints of overheating in the electronic motor control board located in housing underneath the deck of the power foundation.

Description/Models: The power foundations are motorized bed frames, controlled by handheld remotes, which enable the head and/or the foot of the bed mattresses to be moved up and down. The recalled model name is Titanium and the handheld remote is labeled Interflex. *Since adjustable bed bases look very similar, the easiest way to determine if your adjustable bed base is included in this recall is to compare your handheld remote with the picture below. If your handheld remote*

has the same buttons, the same figure 8 shape, and the same Interflex label as depicted in the below photo, then your bed base is included in the recall. No other power foundations are involved in this recall. Approximate retail value between \$1,700-\$2,200.

Distributed by: Springwall Sleep Products, Inc. through various retailers.

When distributed: March, 2008 through 2009.

Remedy: Consumers should immediately unplug the power cord and stop using the power functions of the beds. Canadian consumers should contact Leggett & Platt to arrange for a free replacement product.

Consumer Contact: For additional information, call Leggett & Platt at 855-853-3539 between 8:00 a.m. (EST) and 8:00 p.m. (EST) Monday to Friday, or visit Leggett & Platt's website at www.titaniumrecall.com.

Remarks: The replacement beds are certified to Canadian Standards by MET Laboratories, Inc. For more information about MET Laboratories Inc. product certification process please visit: www.metlabs.com
