Environment

Meaning of crossed-out wheeled dustbin:
Do not dispose of electrical appliances in unsegregated municipal waste or in separate collection facilities. Contact your local government for enquiries regarding the relevant options available. If electrical appliances are disposed of in regular or bulky household refuse containers can look into the groundwater and soil and the risk of contamination to your health and well-being. When replacing old appliances with new ones, the manufacturer is obliged to take back your old appliances for disposal at least free of charge.
