

# An Overview of CSA Z462-15 Workplace Electrical Safety

## A Refresher on the Benefits of Adopting CSA Z462-15 Workplace Electrical Safety

ESA offers Electricians, Electrical Engineers, Maintenance Personnel, Supervisors, Health & Safety Professionals, Business Owners, and Management Personnel a ½ day on-site training workshop for \$2,264 + the price of the Z462-15 Standard for course attendees + applicable taxes (maximum 25 participants). Continuous Safety Services (CSS) program members receive a discount. Ask your Client Safety Specialist for details.

### An Overview of CSA Z462-15 Workplace Electrical Safety

**Establish an understanding of the scope and application of the Standard.**  
**Consider electrically safe work practices and assess selection methods for personal protective equipment (PPE)**

**PREREQUISITE:** Course participants should have an understanding of the scope and content of the CSA Z462-15 Workplace Electrical Safety Standard. This ½ day overview course is designed as a refresher of the full-day course *An Introduction to CSA Z462-15 Workplace Electrical Safety*. Participants are responsible to ensure they have met the prerequisite.

The workshop is intended to provide workplace parties with introductory knowledge in the implementation and application of CSA Z462-15 Workplace Electrical Safety. This is accomplished by establishing an understanding of the scope and application of the Standard and by reviewing its overall structure. The workshop will also provide participants with the ability to locate information within the Standard including safe work practices and methods of selection of personal protective equipment (PPE).

### Schedule an ESA training workshop today!

#### Topics:

- ✓ An Overview of the CSA Z462-15 Standard
- ✓ The Scope and Application of the Standard
- ✓ The Value of Reference Publications and Definitions
- ✓ Electrically Safe Work Practices Including:
  - General Requirements for Electrical Safety Related Work Practices
  - Establishing Safe Work Conditions
  - Work Involving Electrical Hazards
- ✓ Implementing CSA Z462-15 in the Workplace

Participants will be guided through the various clauses and annexes of the CSA Z462-15 Standard that contribute to workplace electrical safety. Upon successful completion participants will have an introductory knowledge of how the CSA Z462-15 Standard contributes in the prevention of workplace incidents and a reduction in incident effects.

**Please note:** This workshop does not attempt to render engineering or other professional services. If such services are required, the assistance of an appropriate professional should be sought.
